

The Metuchen Homework Committee

List of Resource Articles: January 2016

Here is a list of research articles on the topic of homework that has been gathered by the Metuchen Homework Committee as part of our work this year. As we continue our work, we will add to the list, so check back from time to time. We've included lots of articles, with lots of different points of view. The views presented in the articles are those of the authors, and do not necessarily represent the views of the committee or school district. We believe it is important to review and consider a wide variety of information and viewpoints.
